# GWT Construction

## Mission Statement:

"GWT Construction, Strives To Be Recognized As A World – Class Heavy Highway And General Contractor Full Service Firm, While Helping Our Clients Build And Maintain A More Sustainable World By Providing Value -Added Construction Services ”

## About GWT

Established in 2001, GWT Construction is a specialty contractor created to provide a comprehensive range of site work, data telecom, and civil (highway and road) construction services to both government and private sector clients. Combining over 60 years of experience, extensive resources, technical expertise, and a successful track record. GWT Construction has provided a wide range of site work, commercial, civil and telecom/data construction services on projects across the United States.

GWT Construction (GWT) is a certified Disadvantaged Business Enterprise (DBE), and Minority Business Enterprise (MBE) firm in the Washington DC area. GWT successfully graduated the small business 8(a) program in September 2014. GWT has a proven track record of providing high quality and responsive solutions to valued clients. We incorporate safe, proven systems and procedures to effectively and efficiently manage complex projects.

GWT has a diverse team of professionals whose expertise is focused on what the company does best: implement site - specific solutions that are efficient, cost – effective, and on schedule. With technical expertise as diverse and complex as the sites and facilities it services, GWT is strategically positioned to support both private and public sector clients and manage a wide range of projects that address past, present, and future operations.

## GWT Construction Competitive Advantage

**Federal, regional, and local regulatory expertise** - With excellent relationships with regulators on the federal, state, and local level, GWT understands the regulatory climate and requirements in areas in which our clients have interests and assets.

**Full Service capabilities and approach** - From site assessment to restoration, our clients can have every site work and telecom/data need met within GWT.

**Culture of safety** - At GWT, we know that a successful project starts with safety as the number one priority for its employees and the project. Every project at GWT operates with the safety philosophy that zero recordable incidents can be accomplished with proper planning, resources and follow-through.

**Equipment and Expert Crews** - GWT equipment and expert crews trained to operate, any place, any time, and seasoned leadership to meet our clients project requirements. The depth of our equipment and crew resources enable us to complete multiple projects simultaneously and finish your on schedule and in or under budget.

## GWT Construction Insurance Coverage Overview

GWT recognizes its responsibility regarding worker and risk management and actively works companywide to put proper controls and programs in place. To assist in its project development and management, GWT engages the services of several national insurance brokerage firms. Key elements of GWT corporate risk management and insurance program are listed below.

Additional information is available to the clients and partners companies on a case – by – case basis.

**Workers Compensation:** 1,000,000.00

**Umbrella Liability:** \$2,000,000.00

**Commercial General Liability:** \$2,000,000.00
